

NOÉMIE GOUDAL

Noémie Goudal is a French artist who graduated from the Royal College of Art in 2010 with an MA in Photography and lives and works between Paris and London. Noémie Goudal's practice is an investigation into photographs and films as dialectical images, wherein close proximities of truth and fiction, real and imagined offer new perspectives into the photographic canvas. The artist questions the potential of the image as a whole, reconstructing its layers and possibilities of extension, through landscapes' installations. Noémie Goudal is represented by Edel Assanti (London) and the Galerie Les Filles du Calvaire (Paris).
